FEATURES

- 24/7, down-to-the-second monitoring, for both real-time and historical analysis
- Find your worst-performing applications, SQL, and tables in seconds
- Hybrid monitoring for virtualized, physical, and cloud-based database instances
- Uncover root causes from CPU and I/O down to the SQL statement
- Visualize all wait times from resources to blocking, to host and VM resources, and more
- Anomaly detection powered by machine learning gets better over time
- Detailed blocking and deadlock analysis expose your SQL blocking hierarchy
- Cross-platform support for seven leading DBMS platforms
- Easy to install and quick time-to-value, low overhead of 1% or less
- Simple to deploy in Azure with your own licenses
- Always-on Availability Group health and component monitoring

ABOUT SOLARWINDS

SolarWinds (NYSE:SWI) is a leading provider of powerful and affordable IT infrastructure management software. Our products give organizations worldwide, regardless of type, size, or IT infrastructure complexity, the power to monitor and manage the performance of their IT environments, whether on-prem, in the cloud, or in hybrid models. We continuously engage with all types of technology professionals—IT operations professionals, DevOps professionals, and managed service providers (MSPs)—to understand the challenges they face maintaining high-performing and highly available IT infrastructures. The insights we gain from engaging with them, in places like our **THWACK** online community, allow us to build products that solve well-understood IT management challenges in ways that technology professionals want them solved. This focus on the user and commitment to excellence in end-to-end hybrid IT performance management has established SolarWinds as a worldwide leader in network management software and MSP solutions.
